

March 19, 2020

To all Village of Pewaukee Residents and Businesses:

As you all know, we as a Nation are going through a very trying time due to the COVID-19 pandemic. It goes without saying that everyone's daily routine and our social interaction have been dramatically impacted.

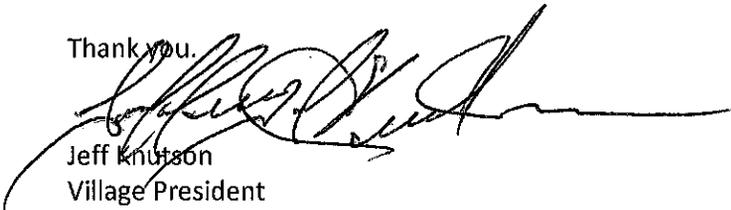

I want to take this opportunity to let you know that the Village of Pewaukee staff are doing their best to maintain a semblance of normalcy for all in our "new normal". The Department of Public Works/Utility staff and Village Hall staff have begun working split shifts to minimize the risk of exposure to all staff members at one time. Due to this change, there may be some tasks that may take longer to attend to as the focus of staff will be on essential functions for utility operations as well as elections and licensing matters.

Please know that absentee voting is currently going on at Village Hall and you are encouraged to request an absentee ballot at <https://myvote.wi.gov>. The Village Police Department and City Fire Department continue to be available 24/7/365.

The Village Board and I, along with Village staff, continue to monitor the daily developments and updates from the Center for Disease Control (CDC) and Wisconsin Department of Health Services (DHS). The best source of information to stay informed about COVID-19 is www.coronavirus.gov (CDC website). I ask for everyone's patience and understanding as our community, state and nation move forward. We will post new information related to Village services on our website, www.villageofpewaukee.wi.us, as needed to keep you updated. Please know that your Village Board and Village staff are dedicated to keeping our community moving forward as best we can under our current situation.

With God's help and everyone working together, I am confident we will get through this.

Thank you.

Jeff Knutson
Village President
